Granville Bridge inspection

The Granville Bridge on Maryborough-Cooloola Road will be reduced to single-lane operation on Thursday 14 November 2019 between 8pm and 5am (weather permitting) for a routine inspection and servicing works.

Transport and Main Roads Director-General Neil Scales said the inspection had been scheduled to occur outside of peak periods to minimise impacts to locals.

"Variable message signs have been put in place advising motorists of the upcoming bridge works," Mr Scales said.

"Traffic controllers will also be in place at the site to assist motorists and pedestrians with the changed conditions."

Mr Scales thanked the local community for its understanding and cooperation while the inspection is completed.

"We understand the inconvenience these works have on the community and will complete the inspections as quickly as possible," he said.

If you require further information, please contact Transport and Main Roads on 1300 728 390 during business hours or email bundaberg.office@tmr.qld.gov.au.
