Definitions and Interpretation

The following Definitions apply to this Policy.

Aircraft means any vessel, craft or thing made or intended to fly or move in or through the atmosphere or space.

Construction Period means the period commencing with the entering into of each Contract provided such Contract is entered into during the Period of Insurance, until in accordance with the obligations of the Insured under such Contract:

- i. the Contract Works have been formally accepted in their entirety by the principal/owner notwithstanding the fact that portions of the Contract(s) may have been handed over, put into use and accepted by the principal/owner prior to that time, including any Performance Testing Periods; or
- ii. with respect to each separable portion of the Contract Works, the time it is taken over and put into use by the principal/owner, including any Performance Testing Periods.

In the event of this Policy being cancelled or not renewed, coverage shall continue subject to the same terms and conditions, in respect of all Contract(s) commenced prior to the date of such cancellation or non-renewal and shall remain in force until:

1. in accordance with i. or ii. above; or
2. the Named Insured formally advises the Insurer that the Contract(s) have been insured elsewhere;

whichever occurs first.

Contract means all works, contracts or agreements including early contractor involvement undertaken by or on behalf of the Insured in connection with the Insured Operations.

Contract Value means the total value of work and construction costs incurred by or on behalf of the Insured in respect of the Contract Works and includes the value of principal-supplied and other free-supplied materials (if required to be insured under the Contract).

Damage means physical loss, physical destruction or physical damage with the word Damaged having a corresponding meaning.

Defects Claims means claims resulting from faulty material, workmanship, design, plan or specification.

Defects Liability Period means the duration of the defects liability period of each Contract during which an Insured is obliged or legally liable to rectify defects, shrinkages, errors, omissions or other faults and/or to complete the maintenance or other obligations under such Contract. This period shall not exceed the Defects Liability Period stated in the Schedule in respect of any one Contract.

Where the Contract provides for the Defects Liability Period to be extended upon rectification of a defect, the Defects Liability Period in respect of the rectification can be extended up to a maximum of 24 months following completion of the rectification works.

Where any rectification work is commissioned prior to the expiration of the Defects Liability Period the coverage provided under Insuring Clause 1.2 of this Policy shall continue until such rectification work has been completed and accepted by the Named Insured but not exceeding 12 months from the start of such rectification work.

Defined Peril means, for the purposes of Exclusion 3.8, fire and explosion.

Event means an occurrence or series of occurrences consequent upon or attributable to one source or original cause.

Flood means inundation following the escape of water from the normal confines of any lake, reservoir, dam, river, creek or navigable canal, but does not mean inundation by water from fixed apparatus, fixed tanks or fixed pipes.

Indemnity Value means:

- i. where the Damage to Insured Property can be repaired, the cost necessarily incurred to restore the Insured Property to its former state of serviceability, including the cost of dismantling and re-erection incurred for the purpose of effecting the repairs. Deductions will not be made for depreciation in respect of parts replaced, but the salvage value of such parts shall be taken into account;
- ii. where the Insured Property is totally destroyed, abandoned or cannot be satisfactorily repaired at a cost not exceeding the market value immediately before the Damage, the market value of the item at the time of the Event. If due to the nature of the Insured Property, it is not possible to readily ascertain a market value, the basis of settlement shall be the replacement cost of the Insured Property that has been Damaged less due allowance for depreciation taking into consideration the anticipated useful life of the Insured Property and the nature of its usage;

Insured means:

- i. the Named Insured;
- ii. any parent or subsidiary company (including subsidiaries thereof) of the Named Insured and any other organisation under the control of the Named Insured and over which it is exercising active management, whether now or hereafter incorporated;
- iii. any of the following persons or entities for whom or for which the insured parties under parts i. and ii. above are obliged to arrange insurance by virtue of a Contract or assumption of responsibility, but only to the extent required by such Contract or assumed responsibility and in any event only for such coverage and Limits of Liability as provided in this Policy:

Such cost of reproduction shall include all reasonable and necessary amounts, not to exceed the amount stated in the Schedule (if any) for any one Event, incurred by the Insured in recreating, gathering and assembling such electronic Data. If the media is not repaired, replaced or restored the basis of valuation shall be the cost of the blank media. However this Policy does not insure any amount pertaining to the value of such electronic Data to the Insured or any other party, even if such electronic Data cannot be recreated, gathered or assembled.

This Reinstatement Value iii does not override Endorsement 5.3.

Material Loss or Damage

The following Insuring Clauses apply to this Policy.

1. Insuring Clauses

1.1 Insured Property

The Insurers will indemnify the Insured in accordance with the Basis of Settlement, against Damage to the Insured Property from a cause not specifically excluded, occurring at Worksites or in transit within the Territorial Limits, in respect of:

- (a) Construction Plant and Equipment - during the Period of Insurance;
- (b) Insured Property as per Insured Property Definition i. (b) - during the Period of Insurance;
- (c) All other Insured Property - during the Construction Period.

1.2 Defects Liability – Extended Maintenance

It is agreed and understood that otherwise subject to the terms, exclusions, provisions and Conditions contained in the Policy or endorsed thereon this insurance includes the Defects Liability Period specified hereunder to cover loss of or Damage to the Contract Works.

- caused by weather perils and/or the insured contractor(s) in the course of the operations carried out for the purpose of complying with the obligations under the Defects Liability / maintenance provisions of the Contract,
- occurring during the Defects Liability Period provided such loss or Damage was caused on the Worksite during the Construction Period before the certificate of completion for the Damaged section was issued.

1.3 Basis of Settlement

In the event of Damage to Insured Property the amount payable shall be in accordance with the Basis of Settlement stated in the Schedule in respect of the property designated therein.

(a) Reinstatement Value

Where the Basis of Settlement is Reinstatement Value the following provisions shall apply:

- i. the work of rebuilding, replacing, repairing or restoring as the case may be (which may be carried out upon any other site(s) and in any manner suitable to the requirements of the Named Insured, but subject to the liability of the Insurers not being thereby increased), must be commenced and carried out with reasonable dispatch;
- ii. where Insured Property has been Damaged and where the Named Insured elects not to reinstate such Insured Property, the Insurers will pay to the Named Insured an amount equal to the cost necessary to replace, repair or rebuild the Insured Property to a condition substantially the same as but not better nor more extensive than its condition at the time the Damage occurred;
- iii. if the Insured Property is reasonably abandoned because the cost of recovery would exceed the amount payable under this Policy in respect of such property, it shall be deemed to be a constructive total loss and settlement shall be made in accordance with the above provisions (as applicable).

(b) Indemnity Value

Where the Basis of Settlement is Indemnity Value the following exceptions will apply to the settlement of Damage to Construction Plant and Equipment:

- i. where the item is financed and in the event of its total loss or constructive total loss, the amount settled shall be the greater of the cost of discharging the lease or the stated Basis of Settlement;
 - ii. in respect of items leased, hired or rented, the basis of settlement shall be in accordance with the rectification provisions of the lease, hire or rental agreement but not exceeding the Reinstatement Value;
- (c) The total amount payable by Insurers will also include any additional amounts as provided in clauses 1.3 (d), 1.4, 1.5 and 1.6 (as applicable).
- (d) Local Authorities Clause

The indemnity provided by this clause 1.3 (d) shall, subject to the Sub-Limit of Liability stated in the Schedule (if any), extend to include the extra costs (including demolition or dismantling) of Damaged Insured Property necessarily incurred to comply with the requirements of any Act of Parliament or regulation made thereunder or any by-law or regulation of any municipal or other statutory authority, other than such extra costs as aforesaid with which the Insured had been required to comply prior to the Damage occurring.

1.4 Undamaged Foundations

Where the Insured Property is destroyed but the foundations are not destroyed and due to the exercising of statutory powers and/or delegated legislation and/or authority by the government or any other statutory authority reinstatement of the Insured Property has to be carried out upon another site, then the abandoned foundations will be considered as being destroyed. The term "foundations" is deemed to include services such as, but not limited to, conduits, pipes, cables and wiring built into the footings and foundations (including concrete floor slabs).

1.5 Output Replacement

If any item(s) of the Insured Property having a measurable output is Damaged (in whole or in part) and which is capable of replacement with a new item(s) which performs a similar function, then the amount payable by the Insurers in respect of such Insured Property shall be on the following basis:

- (a) if any Damaged Insured Property is to be replaced by an item(s) which has the same or a lesser total output, then the amount payable thereof is the new installed cost of such replacement item(s) as would give the same total output as the Damaged item(s);
- (b) if any Damaged Insured Property is to be replaced by an item(s) which has a greater total output and the replacement value is no greater than the value of the Damaged item(s) then the amount payable shall be the cost of the replacement item(s) and no deduction shall be made due to improved output;
- (c) if any Damaged Insured Property is to be replaced by an item(s) which has a greater total output and the replacement value is greater than the value of the Damaged item(s) then the insurable value thereof is that proportion of the new installed cost of the replacement item(s) as the output of the Damaged item(s) bears to the output of the replacement item(s). The difference between the insurable value as defined herein and the new installed cost of the replacement item(s) shall be borne by the Insured.

1.6 Reasonable Margin for Profit

In all cases, the cost of reinstatement shall refer to the final cost to the Insured after completion of the repair, reinstatement or replacement work (including materials and wages incurred for the purpose of repairs and a reasonable margin for profit, administration costs and overheads).

2 Extensions applying to this Policy

In the event of delay in completion of any insured Contract (or part thereof) being incurred solely by reason of Damage to Insured Property which is indemnified hereunder, cover by this Policy shall extend to indemnify the Insured in respect of the amount by which the ultimate cost of construction of those parts of the Contract not suffering such loss or Damage and being unbuilt or incomplete at the date of the Damage should exceed the cost of construction had no such Damage or consequent delay occurred.

Provided always that:

- i. the indemnity provided by this Extension shall apply to the net increase in costs caused by the inflationary effect of escalation in the costs of labour, materials and services which the Insured shall prove to be a direct result of the delay consequent upon indemnifiable Damage.
- ii. no indemnity is given under this Extension in respect of increased construction costs incurred:
 1. in consequence of any other delay not referred to above;
 2. by reason of any improvement to or change in methods of working or construction;

- iii. no indemnity is provided in respect of the payment of penalties or liquidated damages, nor in respect of costs incurred to avoid such payment;

Sue and labour and other costs incurred for general average contributions, the salvage, rescue, recovery or retrieval of Insured Property, together with the cost of dismantling and transportation of Insured Property to an appropriate place for assessment of any Damage including any transportation costs returning the Insured Property to the Worksite or storage yard once it has been repaired or replaced. Such costs and expenses shall be covered notwithstanding the fact that the loss may not have arisen from Damage to the item affected.

For the purpose of claims for general average contributions and salvage charges recoverable hereunder, the Insured Property shall be deemed to be insured for its full contributory value.

(h) Claims Preparation Costs

Provided that the amount of the actual Damage being claimed under this Policy before the application of any Excess exceeds \$750,000, Insurers agree to pay the reasonable costs and expenses incurred by the Insured and not otherwise recoverable in connection with or incidental to preparing, collating, auditing or qualifying actual Damage being claimed under this Policy.

2.2 Plot Ratio Indemnity

In the event of Damage to Contract Works and as a result of the exercise of statutory powers and/or authority by any government or statutory authority the replacement of Contract Works as before is prohibited or is only permissible subject to a reduced floor space ratio index and/or to the payment of certain fees and contributions as a prerequisite to replacement or reinstatement, then the Insurers agree to pay to the Insured in addition to any amount otherwise payable:

- (a) the difference between the actual cost of replacement or reinstatement incurred in accordance with a reduced floor space ratio index and the cost of replacement which would have been incurred had a reduced floor space ratio index not been applicable;
- (b) the amount of any fees, contributions or other impost payable to any government department, local government or other statutory authority where such fee, contribution or impost is a condition precedent to consent being given to the replacement of such Contract Works;
- (c) the amount of any additional costs and expenses incurred by or on behalf of the Insured as a result of alterations to the specifications of such Contract Works brought about by the reduced floor space ratio index as aforesaid.

In arriving at the amount payable under clause (a) above, any amount paid by the Insurers shall include any extra costs of reinstatement or replacement as insured under clause 1.3 (d).
