

Northgate station park ‘n’ ride expansion

May 2022

Preliminary consultation findings

Consultation process

The Department of Transport and Main Roads (TMR) is planning to expand parking facilities at Northgate station in response to high demand for customer parking in the local area. TMR’s preferred option is to replace the existing carpark on Ridge Street and Holland Street with a multi-storey parking facility to provide around 350 additional car spaces. Consultation was undertaken from 18 October to 18 November 2021 to seek the community’s feedback on a proposed expansion to Northgate station park ‘n’ ride.

Artist’s impression only.

Consultation methods used

- two face-to-face information sessions
- media statement
- online survey
- 15,000 letterbox flyers
- signage at Northgate station
- targeted doorknock to residents
- email notifications
- social media

Overview of engagement

Consultation summary

- over 250 pieces of individual feedback were received during the consultation period
- over three-quarters of respondents supported the proposed upgrade.

Common recommendations

- easy access and exit to car park
- a modern and attractive façade
- future proofing the car park capacity
- security needs for commuters and vehicles
- traffic control requirements
- landscaping and streetscaping.

Common concerns

- traffic flow due to the proposed car park entrance on Melton Road
- rat running and general congestion
- pedestrian and bike rider safety
- personal and vehicle security
- impacts to business, commuters and parking during construction.

Next steps

Outcomes and next steps for the proposed Northgate station park ‘n’ ride can be viewed on the project web page.
